

MPOB International Palm Oil Congress and Exhibition

Navigating Uncertainties, Building Resilience

Directory of Exhibitors

7-9 NOVEMBER 2023
Kuala Lumpur Convention Centre

Organised by
Malaysian Palm Oil Board
Ministry of Plantation and
Commodities, Malaysia

Message from the DIRECTOR-GENERAL MALAYSIAN PALM OIL BOARD (MPOB)

- It is with utmost pleasure and appreciation, that I bid a warm welcome to all guests and delegates to the MPOB International Palm Oil Congress and Exhibition 2023, famously known as PIPOC 2023.
- Malaysian Palm Oil Board (MPOB) is proud and honoured to host this biennially event, the largest single palm oil event covering technological advancements and scientific breakthroughs relevant to the development of the oil palm industry.
- PIPOC 2023 theme '*Navigating Uncertainties, Building Resilience*' signifies the challenges that are facing the oil palm industry, ranging from sustainability practices to the COVID-19 pandemic which have shaped changes to the global food security including palm oil.

The advancement of the Malaysian oil palm industry can be attributed in part to the committed efforts in research and development, which lies at the core of MPOB's initiatives. The emphasis on research and development across the entire spectrum of the industry optimises the interplay between economic progress, environmental responsibility, and value enhancement. This approach safeguards that forthcoming growth is conducted within a sustainable framework.

MPOB's comprehensive research and development efforts within the oil palm industry have yielded 714 applicable technologies and 194 specialised services. Notably, about 33% of these technologies have achieved successful commercialisation.

PIPOC 2023 encompasses cutting-edge technological development surrounding the oil palm industry and serves as an impetus for realising the country's vision towards higher value-added activities and technological advancement under the New Industrial Master Plan 2030 (NIMP 2030).

PIPOC 2023 consists of four concurrent conferences covering agriculture, biotechnology and sustainability; downstream and value-addition; processing, food safety and nutrition; as well as global economics and marketing in thrusting the oil palm industry to the next level. These conferences are delivered by policy makers, eminent researchers and captains of industry to congregate with participants for shaping stronger and resilient oil palm industry for the future.

Lastly, I wish to convey my solemn appreciation to all participants, session chairmen, keynote and plenary speakers, paper presenters, exhibitors, sponsors, and every committee member who made PIPOC 2023 an auspicious success.

Thank you.

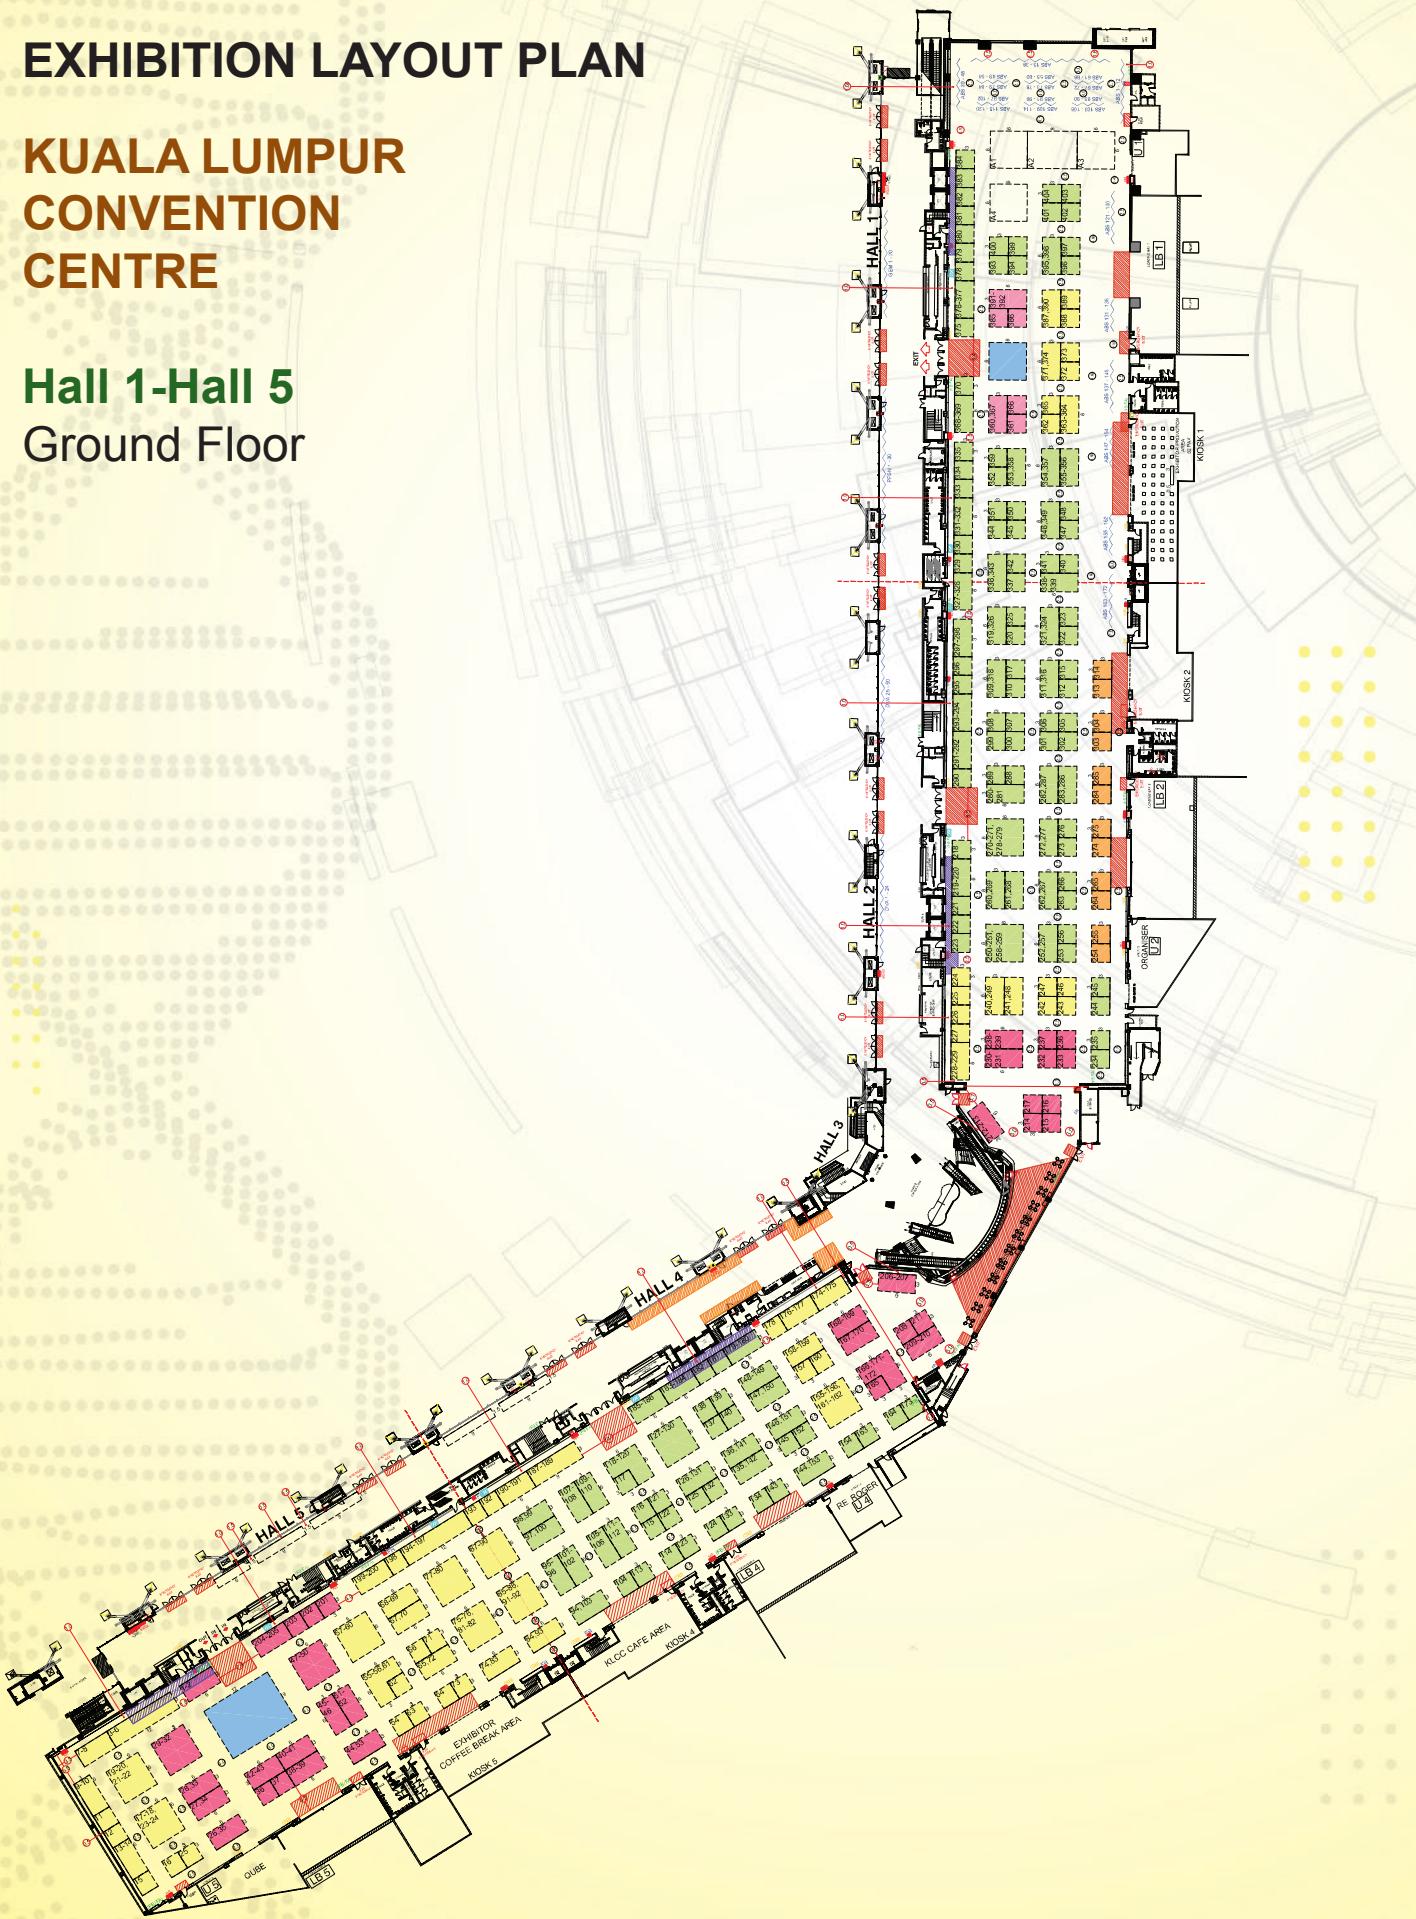

YBhg. Datuk Dr. Ahmad Parveez Ghulam Kadir

**Booth No:
1 & 2**

Company Name	: Behn Meyer AgriCare (M) Sdn. Bhd.
Address	: No. 5, Jalan TP2, Taman Perindustrian Sime UEP, 47600 Subang Jaya, Selangor, Malaysia.
Tel	: +603-8026 3490/ 3333
Fax	: +603-8026 3300
E-mail	: agricareFE@behnmeyer.com.my
Website	: www.behnmeyer.com

Brief Description of Exhibits/Services:

The core business of Behn Meyer AgriCare is in the production, marketing and distribution of fertilisers, specialty fertilisers and crop protection products.

With many internationally renowned fertiliser and agrochemical producers, such as EuroChem, K+S Kali, Compo Expert, Campotex, APC, Mitsui and Ulexandes as our principals, we have contributed significantly to the growth and the vitality of the agricultural sector in Malaysia for more than 65 years.

We support our customers with a broad network of sales offices, warehouses and processing facilities, and our dedicated team of agriculturally trained professionals is available to ensure that we deliver both reliable and qualified services.

**Booth No:
3, 4, 5 & 6**

Company Name	: FGV Holdings Berhad
Address	: Level 20, Wisma FGV, Jalan Raja Laut, 50350 Kuala Lumpur, Malaysia.
Tel	: +6019-333 0279
E-mail	: rizal.ib@fgvholdings.com

Brief Description of Exhibits/Services:

Experience the diverse offerings of FGV Group, showcasing a comprehensive range from agriculture to food production. Explore our commitment to quality and sustainability across the entire supply chain.

**Booth No:
7 & 8**

Company Name	: Sawipac Sdn. Bhd.
Address	: Lot 181, Batu 4, Jalan Mersing, 86000 Kluang, Johor, Malaysia.
Tel	: +607-773 3661
Fax	: +607-773 2661
E-mail	: info@sawipac.com / infosawipac@gmail.com
Website	: www.sawipac.com

Brief Description of Exhibits/Services:

Sawipac design and build integrated modern palm oil mills in CKD forms using own technology. Our company is capable of construction 10-60 FFB/t/hr mills and specialises in innovation kernel separation system and biomass power plants. The machines designed by Sawipac are compact and operate with lower energy consumption. Thus, saving space and energy cost. We also design and build machine/process systems that converts palm oil or another agricultural residue.

**Booth No:
9 & 10**

Company Name	: Malaysian Palm Oil Council (MPOC)
Address	: Level 25, PJX HM Shah Tower, No. 16A, Jalan Persiaran Barat, PJS 52, 46200 Petaling Jaya, Selangor, Malaysia.

26 & 35

Company Name	: Tsubaki Power Transmission (M) Sdn. Bhd.
Address	: No. 8, Jalan Utarid U5/16, Mah Sing Integrated Industrial Park, Section U5, 40150 Shah Alam, Selangor, Malaysia.
Tel	: +6019-775 8161
E-mail	: fakhri@tsubaki.my

Brief Description of Exhibits/Services:

We are Tsubaki Power Transmission (Malaysia) Sdn. Bhd. subsidiary of Tsubakimoto Chain Japan, the maker and distributor of roller chain and conveyer chain in palm oil mill industry. In fact, we are the premium maker with 105 years' experience of manufacturing chains.

Booth No:
27 & 34

Company Name	: Cenergi SEA Berhad
Address	: Level 4, Blok E, Dataran PHB, Section U2, Saujana Resort, 40150 Shah Alam, Selangor, Malaysia.
Tel	: +603-5885 0454
Fax	: +603-5885 1474
E-mail	: feeza.mansur@cenergi-sea.com

Brief Description of Exhibits/Services:

Cenergi SEA Berhad (Cenergi) a subsidiary of Khazanah Nasional Berhad, is a premier sustainable energy solutions company specialising in reducing carbon emissions through development and investment in renewable energy and energy efficiency projects.

Booth No:
28 & 33

Company Name : **Bosch Rexroth Sdn. Bhd.**
Address : 11, Jalan Astaka U8/82, Bukit Jelutong,
40150 Shah Alam, Selangor, Malaysia.
Tel : +6012-216 0350
E-mail : serena.sit@boschrexroth.com.my

Brief Description of Exhibits/Services:

Bosch Rexroth is one of the leading specialists in the field of drive and control technologies. We develop innovative concepts for machine and plant manufacturers all over the world. With its long history and unique industry expertise, the company offers hydraulics solution and automation for the palm oil industry.

Booth No:
**29, 30, 31
& 32**

Company Name : **Unicorp Engineering (S) Pte. Ltd.**
Address : 37, Jalan Pemimpin, #07-04/05 Mapex Bldg,
Singapore 577177.
Tel : +65 6841 8966
Fax : +65 6841 8944
E-mail : hq@unicorp.com.sg
Website : www.unicorpengineering.com

Brief Description of Exhibits/Services:

Unicorp Engineering (S) Pte. Ltd. is a leading engineering company dedicated to providing innovative automation solutions and exceptional services in the edible oil and fats industry.

Incorporated in Singapore on 1 September 1999 as one of the pioneers in the field, our core focus has been the only constant through the years. We aim to supply fully automated processing and packaging production lines that enable clients to produce high quality, value-added texturised oils and fats (e.g. shortening, margarine and cocoa butter substitute).

Co-exhibitor	Company Name : Pattyn Belgium NV
Address	: Hoge Hul 2, 8000 Bruges, Belgium.
Tel	: +32 50 450 480
E-mail	: info@pattyn.com
Website	: www.pattyn.com

Brief Description of Exhibits/Services:

Turnkey solutions for industrial packaging

As a pioneer and market leader in box lining equipment, Pattyn responds continuously to the market demands. For every need, we offer the right solution to pack and weigh fill bulk products automatically into lined containers.

With over 70 years of experience, Pattyn helps you with all your packaging needs. We integrate standalone machines or deliver turnkey projects from case erecting, bagmaking and inserting, filling, to bag and case closing and even palletising. Offering also conveyors, printers and end-of-line equipment, customers benefit from having just one dedicated supplier taking full responsibility for the complete line.

Our ultimate goal is to enhance our customers' packaging process and to reduce their running cost.

As full service and solutions provider we advise our customers from the initial briefing to the after sales service. With a customer-intimate approach you benefit from a hassle-free journey before, during and after start-up.

Pattyn is at your service, anywhere, anytime. We are convinced that being close to our customers makes a big difference. That is why, with the Pattyn Group, we have seven divisions, many local sales and service representatives and more than 30 business partners.

2nd Co-exhibitor	Company Name : SPX FLOW Technology Singapore Pte. Ltd.
Address	: 20, Pioneer Crescent, #06-01 West Park BizCentral, Singapore 628555.
Tel	: +65 6264 4366
Website	: www.spxflow.com

Brief Description of Exhibits/Services:

Based in Charlotte, N.C., SPX FLOW, Inc. improves the world through innovative and sustainable solutions. The company's product offering is concentrated in process technologies that perform mixing, blending, fluid handling, separation, thermal heat transfer and other activities that are integral to processes performed across a wide variety of nutrition, health, and industrial markets. For the food industry, the company offers process technologies including SSHE technology and equipment for processing margarine, shortening, butter, and more. SPX FLOW has operations in more than 25 countries and sales in more than 140 countries. To learn more about SPX FLOW, please visit www.spxflow.com.

3rd Co-exhibitor

Company Name	: CHR. BOCK & SOHN GmbH & Co. KG
Address	: An'n Slagboom 43 – 45, D – 22848 Norderstedt, Germany.
Tel	: +49 40 5284060
Fax	: +49 40 52840622
E-mail	: mail@bockpack.com
Website	: www.bockpack.com

Brief Description of Exhibits/Services:

Since more than 90 years CHR. BOCK & SOHN machines dose, wrap and cartonise animal and vegetable fats worldwide.

From our location near Hamburg, Germany, we deliver our machines to customers from all over the world and thus establish new standards in the packaging of butter and fats for large-scale industrial use.

**Booth No:
36**

Company Name	: Vacuum Technique Singapore Pte. Ltd.
Address	: 42, Loyang Drive, Loyang Industrial Estate, Singapore 508962.
Tel	: +65 6303 8365
E-mail	: laura.chong@vt.atlascopco.com
Website	: www.atlascopco.com

Brief Description of Exhibits/Services:

Edwards, with over 100 years history, is a world leader in the design, technology and manufacture of vacuum pumps. We offer a complete range of vacuum pumping solutions, from simple vacuum pumps to specially engineered multi-stage systems. Experience in the process industry and our track record in dealing with tough operating environments is unequalled. Using the most innovative and up-to-date modelling techniques, we can optimise the pumping configuration to provide a system design giving the maximum performance in the most reliable and cost-effective way. Our team is always on hand to provide you with world-class solutions and our legendary customer support.

**Booth No:
37**

Company Name	: Pascal Biotech Sdn. Bhd.
Address	: No. 63, Jalan Lombong Emas 5, Kawasan Perindustrian Ringan, off Jalan Tun Dr. Ismail, 70200 Seremban, Negeri Sembilan, Malaysia.
Tel	: +606-762 6739/ +6019-726 0773

 Website : www.jayamata.com.my

Brief Description of Exhibits/Services:

Malaysia, Indonesia and Thailand are the world's largest producer of palm oil and rubber. These three countries produce about 70%-80% of the global natural rubber and palm oil supply. Due to the increasing market demand, tools with higher quality have to be produced to achieve the needs of consumers as well as to make the whole harvesting process more efficient and relaxing.

Our company's brand 'JAYA MATA' is created based on the belief that "quality creates brand". In order to make sure all 'JAYA MATA' products are with best quality, we continually develop and improve our products. Our prospect is to make 'JAYA MATA' products to be consumer's first choice in the market, meanwhile building up the brand awareness among consumers. We wish that 'JAYA MATA' will become the "common noun" of all the tools in the near future.

Our goal is to make our brand 'JAYA MATA' a unified brand to assist the consumers to distinguish the quality of different plantation tools. As there are many different similar appear in the market which making the consumers confused; therefore, there is a need for a highly recognised brand 'JAYA MATA' to avoid consumers from purchasing products with low quality. We promise that all our products are with high quality. We don't afraid of making commitment since we are confident of our products.

Brief Description of Exhibits/Services:

PalmPro, a revolutionising agricultural innovation, born from Casey Teh's determination to enhance oil palm harvesting efficiency, reimagines crop collection. Through a 12-year quest, Casey leveraged aerospace carbon fibre composites, an unconventional choice, and crafted high-strength poles. This remarkable development boosts harvesting efficiency by 30%, setting new global standards. PalmPro's unique marketing strategy secured support from major Malaysian plantations like IOI, KLK, and FGV, addressing labour shortages while benefiting local communities and national income. Beyond oil palms, PalmPro revolutionises coconut harvesting and is poised to transform date palm collection in Arab and African nations. Its adaptability extends to access barriers, scaffolding, and ladders, promising a more efficient, sustainable, and profitable future in agriculture.

Brief Description of Exhibits/Services:

Jasa Aman Sdn. Bhd. has become well-known in the industry for reliability, lower cost, minimal and simple maintenance, rugged and robust construction for the manufacturing, assembly and packaging of prime steam turbines.

Our company have sold numerous steam turbines in the 100 to 6000 kW range and have capabilities of producing more than 15 000 kW. Our turbines are standardised, but each turbine is custom made according to customer specifications. Prime turbines are now used in palm oil mills, wood-based industries, rice mills and power plants located in Malaysia, Thailand, Indonesia, Pakistan, Nigeria, Ivory Coast, Congo, Papua New Guinea, Philippines, Italy, Poland, Spain, Ukraine, South America, North America, etc.

The success story from our experience in rotating equipment have also expanded our business into other products such as air compressor, gearbox, gas engine, decanter and pump. We have complete facilities in Malaysia and Indonesia that can provide our customers with a complete one stop shop solution for the sales and services of all rotating equipment.

E-mail	:	sg.enquiry@lipico.com/ my.enquiry@lipico.com
Website	:	www.lipico.com

Brief Description of Exhibit/Services:

LIPICO offers customer-centric solutions in the design and supply of following processes:

Edible Oil Refining:

1. CPO washing for 3MCPD ester mitigation
2. Degumming
3. Neutralisation
4. Bleaching
5. Deodourisation
6. GE Mitigation
7. Dewaxing/ Winterisation

Edible Oil Modification:

1. Fractionation
2. Hydrogenation
3. Inter-esterification

Renewable Fuels:

1. Pre-treatment for biodiesel feedstock
2. Transesterification (Patented)
3. PFAD re-esterification
4. Biodiesel cold filtration
5. Biodiesel distillation
6. Enzymatic biodiesel process
7. Pretreatment for HVO production

Oleochemicals:

1. Fat splitting
2. Fatty acid fractionation and distillation
3. Glycerine refining
4. Fatty alcohol

Special Esters:

1. Medium-chain triglycerides/ MCT
2. Glycerol monoesters
3. Isopropyl esters

Energy efficiency and maximum yield have been our primary consideration in the plant design. Since 1996, we have delivered more than 700 LIPICO plants to 32 countries across Asia, Middle East, Africa, Europe, America and Latin America.

With a dedicated and professional team, all our plants bear the hallmarks of LIPICO's emphasis on innovation, service and quality. This is manifested by the repeated orders from our satisfied clients, accepting LIPICO as their preferred partner.

At LIPICO, we see people and technology as one.

Founded since March 1918, NTN Bearing is one of the world's largest ball and roller bearings manufacturer, long recognised for the most stringent quality standards in the industry.

Our high-performance products, bearings are essential and precision components that support the rotation of machinery, increase customer productivity and efficiency. They are used in various types of machinery including automobiles, wind turbines, rolling stocks, and others especially in palm oil to assist in the daily lives of people around the world.

NTN Bearing major products range, as below:

1. Deep groove ball bearings
2. Spherical roller bearings, ULTAGE series
3. Thrust spherical roller bearings
4. Pillow Blocks/Bearing units
5. Plummer blocks
6. SmartTEMP (Induction Heater)
7. Ready Booster (Automatic Lubrication)

ULTAGE a name created from the combination of 'Ultimate' and 'Stage'.

Brief Description of Exhibits/Services:

Synergy Ecotech Engineering Sdn. Bhd. (SEE) is an investment company that specialises in providing sustainable technologies and solutions for the palm oil industry. As a member company of the YKL Group, SEE leverages the group's expertise in machinery manufacturing, engineering, research and development, and project management. With robust support from its core engineering and financial capabilities, SEE is well-positioned to expand into new horizons and establish innovative business collaborations with palm oil mills to achieve long-term financial and sustainability goals together.

Presently, SEE is focusing on Solid Removal and Oil Recovery System (SRORS) for palm oil mills 'We Build, We Invest' concept is the first of its kind in the industry. This means that SEE will invest in, design, build, and operate the entire SRORS to maximise oil recovery for the mills, SEE believes that investment in this technology goes beyond financial gain, as it can help mills improve their sustainability and contribute to a more environmentally responsible palm oil industry.

The goal of SEE is to offer a viable breakthrough solution to the industry's norm, which will further increase the oil recovery and drive the advancement of sustainable practices in the palm oil industry. With a team of experienced senior engineers and project team, SEE ensures the highest standards of quality and safety during the construction and operation of the SRORS.

Ultimately, the unique 'We Build, We Invest' model will establish long-term strategic business partnership with mills and drive significant value to the palm oil sector.

Fax	+607-777 1066
E-mail	sales@leesonmech.com
Website	www.leesonmech.com

Brief Description of Exhibits/Services:

Leesonmech Engineering (M) Sdn. Bhd. was founded by ex-palm oil managers and engineers on 16 March 2001. As the market leader with 18 years of palm oil milling knowledge, Leesonmech supplies high quality equipment and machinery to palm oil mills all around the world. Certified under ISO 9001, Leesonmech delivers fast and effective after sales service to all of our customers and ensures that products undergo stringent quality control before landing in the hands of the client. Our products include but are not limited to biogas blowers, conveyor chains, high performance butterfly valves, hybrid (ball segmented) valves, general purpose butterfly valves, boiler feed water pumps, liquid ring vacuum pumps, side channel pumps, circular vibrating screens, control valves and more.

With seven exclusive agencies under our belt, Leesonmech has become a one stop shop for equipment procurement, fulfilling the needs of palm oil mill stakeholders. We are the sole distributor for SPECK PUMP (Germany) in Malaysia, OKM (Japan) High Performance Butterfly and Hybrid valves in Malaysia and Indonesia, MEIDINGER (Switzerland) ATEX and MyHijau certified biogas blowers, SWECO (USA) Circular Vibrating Screen for Malaysia's palm oil industry, MACKCHAIN (Australia) conveyor chains, SP pumps (Malaysia) consisting of process pump, water pump, deaerator extraction pump and chemical pump, and Forbes Marshall (India) control valves and desuperheaters.

Besides above, we supply other related products used in palm oil mill industries.

1. YASIKI (Malaysia)
Side entry mixer/ stirrer, submersible mixers and aerators.
 2. ERIEZ (USA)
Plate magnets and vibratory feeders.
 3. CELLECO CERAMIC CONE
Precleaner system.
 4. VACUUM DRYER SYSTEM
Vacuum dryer vessel, liquid ring vacuum pump, oil transfer pump and accessories.

Brief Description of Exhibit/Services:

ARACHEM

Arachem is highly respected as the country's leading provider of the world's most advanced scientific test kits and engineering solutions. We are also highly sought by the private sectors and government agencies for our up-to-date product knowledge and technical expertise.

We offer below cutting-edge engineering solutions:

1. Mixing, processing and fluid transfer equipment
 - Top and side entry mixers
 - Static mixers
 - Metering pumps
 - Sanitary centrifugal and positive displacement pumps
2. Vacuum pumps and blowers
3. Online water in oil monitoring
4. Bulk handling equipment
 - Vacuum conveyors
 - Optical sorter
5. Chemical preparation and dosing systems

NANO TREE

Nano Tree (M) Sdn. Bhd. is a subsidiary of Arachem (M) Sdn. Bhd., formed to spearhead the chemical division. Nano Tree serves the industry in providing new and innovative solutions to problems which cannot be solved with equipment and rigorous quality controls.

The mission of Nano Tree is to provide its customers with specialty chemicals of specific functionalities as well as to reduce the cost of production with methods to purify and reuse spent chemicals.

We offer below specialty chemicals:

1. Activated carbon
2. Ion exchange resin
3. Zeomedia

Brief Description of Exhibits/Services:
Preventive Maintenance To Move Towards Higher Efficiency

As a chain conveyor supplier proudly offering our in-house ‘Fujimoto’ chain brand, our foremost goal is to ensure that the products we provide to our customers perform at their peak efficiency. Our commitment extends beyond just supplying chains; we also actively support our clients in developing preventive maintenance strategies through our conveyor chain condition audits.

Through this after-sales service, we provide a comprehensive assessment of the condition of their conveyor chain. This valuable information empowers our clients to plan ahead for chain replacements during scheduled shutdowns, thereby averting the risk of major emergency shutdowns caused by conveyor chain issues.

As moving forward into I.R 4.0, in collaborating with Schaeffler, Schaffler introduced OPTIME as a Condition Monitoring device. OPTIME allows clients to start monitoring hundreds of rotating machines (potential damage, imbalance or misalignment) in just few hours. This enables clients to easily and conveniently plan their long term maintenance, manpower or spare-parts equipment.

Brief Description of Exhibits/Services:

Determining ploidy is an important form of analysis in plant breeding; Controlling the ploidy level is often essential for monitoring the outcome of breeding procedures and seed quality in plant production. As such, accurate measurement of genome size and ploidy levels plays a major role in today's agriculture science. By using flow cytometry in determining fluorescently labelled nuclei, this method is proven to be time- and cost-saving as it provides precise results in just under 2 minutes. Sysmex Asia Pacific is proud to offer our latest CyFlow® Ploidy Analyser to accelerate development of agriculture, especially in the palm oil industry.

Brief Description of Exhibits/Services:

We are one of the leading process equipment manufacturer from India. We have supplied our products and services in India as well as in abroad. Our company is certified with ISO9001 – 2015, ISO14001:2015, BS OHSAS 18001:2007, ASME ‘U’ Stamp, ‘S’ Stamp, National Board ‘R’ Stamp. We are in the business of:

Turn-key Plants: Distillery Plant – molasses and grain based, guar gum, detergent powder plant, MCCP, starch and glucose, zero liquid discharge plant, nutraceutical, powder plant, milk powder plant, herbal extraction plant, thermal desorption unit, fruit and vegetable processing.

Dryers: Spray dryer, rotary dryer, spin flash dryer, rotary vacuum dryer, paddle dryer, continuous fluid bed dryer, steam tube bundle dryer and cone screw dryer.

Evaporators: Falling film evaporator, agitated thin film evaporator, multiple effect evaporator and forced circulation evaporator.

Mixers: Cone screw mixer (nauta mixer), ribbon blender, paddle mixer, high speed continuous mixer, plough shear mixer, conical blender and conche mixer.

Process Equipments: Heat exchanger, reactors, fermenter, dust collection system, wet scrubber, bag filter, screw conveyor, pressure vessel, silos and crystallisers, blowers.

Boilers: Package boilers, captive plant high capacity boilers, waste heat recovery boilers and thermic fluid heaters.

Our manufacturing facilities are:

1. Control panel and automation systems manufacturing facility at MIDC Bhosari, Pune.
2. Separate fabrication facility for various grades of stainless steel, alloy steels, non ferrous steel at Chakan, Kharabwadi MIDC, Pune, Maharashtra, India.
3. Separate fabrication facility for various grades of carbon steel at Village Ahire, Khandala, Satara. (on the way to Satara), Maharashtra, India.
4. SEZ unit for export oriented orders at Khed, Pune, Maharashtra, India.

Brief Description of Exhibits/Services:

System integrator in biogas conveying and utilisation including biogas blower, flaring system, pre-treatment system, membrane storage, biogas upgrading system and high pressure compressor.

Booth No:
336 & 343

Company Name	:	Koerting Hannover GmbH
Address	:	Badenstedter Strasse 56, D-30453 Hannover, Germany.
Tel	:	+49 511 2129-0
Fax	:	+49 511 2129-22
E-mail	:	info@koerting.de
Website	:	www.koerting.de
Company Name	:	Branch Office
Address	:	Koerting SEA Sdn. Bhd.
	:	Suite B-08-04, Plaza Mont' Kiara, No. 2, Jalan Kiara, Mont' Kiara, 50480 Kuala Lumpur, Malaysia.
Tel	:	+603-6201 0130
Fax	:	+603-6201 0131
E-mail	:	info@koerting.com.my

Brief Description of Exhibits/Services:

Koerting steam jet ejectors operate virtually in every process stage of edible oil production (deodorising, physical refining, bleaching, drying, extraction, esterification, hydrogenation), oleochemical production (splitting, glycerine evaporation and distillation, fatty acid distillation/fractionation) and biodiesel production (methyl ester drying, glycerine evaporation and distillation) where they accomplish a decisive part in securing high-quality end products. Besides the conventional barometric vacuum systems Koerting supplies alternative systems with minimised water and air pollution and lowest energy consumption, such as ice or dry condensation or systems operating in a closed alkaline circle (ACL).

Website	:	www.hrs-heatexchangers.com/my

Brief Description of Exhibits/Services:

Headquartered in the UK, HRS Heat Exchangers Sdn. Bhd. operates at the forefront of thermal technology, offering innovative and effective heat transfer solutions worldwide, focusing on managing energy efficiently. With over 40 years' experience, HRS provide a range of heat exchangers, components, skids and complete processing systems that help you to optimise production and make the most of raw materials whilst reducing energy consumption, waste and emissions. Our patented and proven technologies combined with our knowledge make it possible to offer best in class solutions in various sectors including environmental applications such as evaporation and concentration of waste or POME.

Brief Description of Exhibits/Services:

We at Codon Genomics (CoGen), believe oil palm sustainability starts with the upstream plantation. Getting it wrong at the upstream can and will affect the entire value chain. Our starting point is the planting material, the core of farming. The AGRINOME™ platform, the first software ecosystem, has the capacity to cater to all planting materials production and research. It covers from breeding, tissue culture, seed production and nursery until elite planting materials. Our vision is to make AGRINOME™ the *de-facto* platform that is both affordable and powerful for all oil palm plantations regionally and beyond.

Company Name	:	INO Nature Sdn. Bhd.
Address	:	3 Jalan Rajawali 1A, Bandar Puchong Jaya, 47100 Puchong, Selangor, Malaysia.
Tel	:	+6017-680 4221
E-mail	:	angustan@inonature.com

Brief Description of Exhibits/Services:

INO Nature was founded in 2006 as a research-based fertiliser solutions company. INO Nature was founded with the intention reducing world hunger and food crisis, promoting sustainable agriculture methods, and enhancing global health via nutrition.

Today, INO Nature is one of the leading regional suppliers in the durian planting sector. It has created fertiliser solutions using a combination of bio, organic, and chemical fertilisers out of an inventive desire for sustainable agriculture techniques. Its methods have supported growers with various-sized plantations to experience higher yields and better fruit quality. Additionally, INO Nature offers its clients with plantation consulting and pre-planning services.

Booth No:	Company Name	:	ANDRITZ Singapore Pte. Ltd.
351	Address	:	2 International Business Park, The Strategy, Tower 1, #04-13/14, Singapore 609930.

Website	:	www.andritz.com/separation	

Brief Description of Exhibits/Services:

ANDRITZ Separation provides mechanical and thermal technologies as well as services and the related automation solutions for efficient solid/liquid separation. The customised, innovative solutions focus on minimising the use of resources and achieving the highest process efficiency, thus, making a substantial contribution towards sustainable environmental protection.

Whatever the step in the palm oil milling process (clarification, POME, fertiliser, composting, biogas, EFB), ANDRITZ equipment is the right solution to meet the separation needs of palm oil producers and users. Our portfolio ranges from membrane filter presses, decanter centrifuges, dryers, to screw presses and belt presses for various steps in the palm oil processing. Our innovative palm olein power pack improves food safety standard and allows substantial cost savings.

Company Name	:	Sulzer Chemtech
Address	:	10 Benoi Sector (S) 629845, Singapore.
Tel	:	+65 6800 0000
E-mail	:	Minmin.tan@sulzer.com
Website	:	www.sulzer.com/chemtech

Brief Description of Exhibits/Services:

Sulzer Chemtech is global market leader in reaction, separation, purification, static mixing as well as polymer processing technologies. With a comprehensive offering that includes process components all the way to complete process plants and technology licensing, we can serve a broad range of industries with key solutions to intensify processes, increase efficiency and improve product quality. With an ever-expanding portfolio of cutting-edge products that supports circularity while reducing material and energy use as well as emissions, we are the ideal partner to support the net zero transition of businesses across the chemical and polymer value chains. We also offer our technology innovations to support the sustainable manufacturing of bio-plastics, renewable fuels, chemical recycling for unrecyclable materials as well as carbon capture technologies.

Company Name : **Triveni Turbines**
 Address : 12-A, Peenya Industrial Area, Bangalore,
 India, 560058.
 Tel : +91 80 22164100
 Fax : +91 80 22164100
 E-mail : deepak.nikam@triventurbines.com
 Website : www.triventurbines.com

Brief Description of Exhibits/Services:

Over the last 50 years, Triveni Turbines has been offering Industrial steam turbines solutions globally. The range of steam turbines comprises of Backpressure and Condensing that are easily customised to suit the segment-specific and customer-specific needs. Our products are equipped with a choice of the impulse and reaction technology, these turbines can work across a wide range of pressure and flow applications.

Triveni Turbines is one of the largest manufacturers of industrial steam turbines of up to 100 MWe and has emerged as one of the market leaders in the sub-30 MWe range. With more than 1 billion operating hours of turbine fleet, it has installed over 6000 steam turbines (generating more than 16 GW power generation capacities) in 20 plus industries.

We are present in over 80 countries around the world, and the steam turbines are manufactured at our world-class facilities located in Bengaluru, India. Our products are used in diverse industries for power generation and heating applications in segments like sugar, distillery, cement, steel, pulp and paper, textiles and palm oil to food processing, petroleum refineries, chemicals, petrochemicals, fertilisers, to biomass and waste to energy, among others.

Triveni Turbines with its global expertise and local manufacturing excellence has helped its customers by understanding their requirements in detail and offer its robust API 611 and API 612 compliant steam turbines. Triveni's API compliant steam turbine products are also prequalified with globally reputed National Oil Companies, Original Equipment vendors and EPC/PMC companies.

Our Aftermarket business, Triveni REFURB, works globally across all brands of rotating equipment, leaving a positive footprint on repair, spares, overhauling, efficiency improvements, etc. up to 500 MW. In its quest for growth, Triveni REFURB has entered new geographies such as Asia-Pacific and has penetrated new industry segments such as geothermal and gas turbines.

Brief Description of Exhibits/Services:

The Desmet Ballestra Group is the world leader in developing, engineering and supplying technologies, processing plants and proprietary equipment for the following business areas:

Food, Feed and Greenfuel

1. Oilseeds, oils and fats
2. Oleochemicals, HVO and biodiesel
3. Rosedowns pressing
4. Stolz animal feed and agro food

Chemicals for Life

1. Detergents, surfactants and chemicals
2. Mazzoni LB soap

The Desmet Ballestra Group resulted from the merger of best-in-class companies in their field:

De Smet (Belgium), Rosedowns (UK), Ballestra (Italy), Stolz (France), Mazzoni LB (Italy). Desmet Ballestra is present in more than 20 offices throughout the world. For more information on oilseeds, oils and fats, oleochemicals, HVO and biodiesel, visit us at:

To promote electrical heat tracing products and services.

Booth No: 368 & 369	Company Name : Ballestra-Mazzoni
Address	: Via Piero Portaluppi, 17 – 20138, Milano – Italy.
Tel	: +39 02 50831
Fax	: +39 02 58018449
E-mail	: mail@ballestra.com
Website	: www.ballestra.com

Brief Description of Exhibits/Services:

Ballestra is the world leader in developing, engineering and supplying technologies, processing plants and proprietary equipment and machinery for the following business areas:

1. Powder and liquid detergents
2. Surfactants
3. Toilet and laundry soap, syndet tablets, rim-blocks, and solid shampoo
4. Specialty esters
5. Chemical plants: sulphuric acid, phosphoric acid, fertilisers

The group today includes the following brands:

1. **Ballestra**, the world leader in process plants for detergents and surfactants since its establishment in 1960. Driven by continuous innovation, today Ballestra offers state-of-the-art solutions for anionic surfactants production, thanks to the patented SULPHONEXT Falling Film Sulphonation, and the Enhanced Loop Reactor for Alkoxylation, an evolution of Pressindustria technology acquired in 2010. Since the '90s has also become a reputable and well-known player within the inorganic chemicals, including sulphuric acid and phosphoric acid production plants and fertilisers industry.
2. **Mazzoni**, the world leader in soap and glycerine processing plants and soap finishing lines, with more than 2500 units installed all over the world. Mazzoni was founded in 1947 and merged into Ballestra in 2017.

Moreover, Ballestra wholly owns the following companies:

1. **Buss ChemTech AG**, based in Pratteln, Switzerland, a world leader in the supply of technologies and process plants for gas-liquid reactions using the patented BUSS LOOP® reactor. Buss is a reputable supplier of technologies and plants for the fluorine industry and phosgene production and usage. Buss ChemTech AG joined the Ballestra group in 2021.
2. **Ballestra Engineering and Projects Limited (BEPL)**, based in Bangalore, India, a wholly owned subsidiary of Ballestra, supports the group activities regarding detail engineering, procurement and site technical assistance worldwide. The company, established in 2022, also supports sales and marketing activities in the Indian subcontinent.

Company Name : **Treehouz Asia Sdn. Bhd.**
 Address : No. 8, Jalan Serendah 26/39, Seksyen 26,
 40400 Shah Alam, Selangor, Malaysia.
 Tel : +603-5891 8778
 E-mail : biomass@treehouz.asia
 Website : www.treehouz.asia

Brief Description of Exhibits/Services:

Having stood for over a decade, Treehouz Asia is an engineering company that specialises in providing turnkey solutions for the construction of biomass processing plants.

Our services:

- Turnkey Pellet Plant and Turnkey Drying System
- Pellet Plant Design, Build, Operate and Maintain
- Plant Control and Automation System
- Consultation: Technical Audit, Feasibility Study, FEED
- Biomass Plant Equipment and Spare Part Supply

Besides being the most established Oil Palm Biomass Processing Solution provider in this region, our experience cover most of the common biomass material in Southeast Asia, which includes:

1. Wood (acacia, rubber, mixture of tropical)
2. Palm Empty Fruit Bunch (EFB)
3. Oil Palm Trunk (OPT)
4. Palm Kernel Expeller (PKE)
5. Rice husk
6. Treebark
7. Sago bark
8. Kenaf fibre
9. Carbonised EFB Pellet
10. Others (carbonised food waste and shredded cloth)

378 & 379**

Company Name	: Cultivate Malaysia Sdn. Bhd.
Address	: Level 25, Menara Worldwide, 198, Jalan Bukit Bintang, Kuala Lumpur, Malaysia.
Tel	: +6011-1100 9008
E-mail	: info@cultivate-agri.com
Website	: www.cultivate-agri.com

Brief Description of Exhibits/Services:

Estate management software based on Industry 4.0 and Smartfarm principles.

1. Planning, scheduling and execution of estate operations.
2. Analytics, big data for business insights and operational monitoring.
3. Onboarding, attendance and cheque roll.
4. Crop input management (chemical, fertiliser, tools and equipment).
5. Surveys and forms to manage quality and certifications.
6. ERP and IoT integration.
7. GIS and satellite imagery for crop health monitoring and soil management.

**Booth No:
380 & 381**

Company Name	: Buhler Malaysia Sdn. Bhd.
Address	: Level 23, Suite 23-01B & 23-02, The Pinnacle Sunway, Persiaran Lagoon, Bandar Sunway, 47500 Subang Jaya, Selangor, Malaysia.
Tel	: +6016-566 2323/ +65-985 98961
E-mail	: cherrie.kin@buhlergroup.com

Brief Description of Exhibits/Services:

When it comes to oilseed preparation, Buhler is your natural choice of partner. From soyabeans, rapeseeds and sunflower seeds to various other oilseeds, our high-availability technology is key to efficient preparation prior to extraction. We work closely with manufacturers of pressing and extraction systems to provide complete process solutions, achieving capacities beyond 15 000 t/24 hour. Our proven reliability, technology and services can help you to reduce the cost of ownership and improve your extraction yield. We offer the industries' most comprehensive portfolio in the preparation of oilseed, covering all process steps from grain intake to flaking, as well as hull and extraction meal processing.

Tel E-mail		: +603-7846 6565 : sawitkaret005@gmail.com

Brief Description of Exhibits/Services:

Supply of cover crops and harvesting tools for palm oil and rubber industry.

Booth No: 383 & 384	Company Name	: Sime Darby Plantation Agri-Bio Sdn. Bhd./ Guthrie Agri Bio Sdn. Bhd.
	Address	: Level 8, Main Block, Plantation Tower, No. 2, Jalan PJU 1A/7, Ara Damansara, 47301 Petaling, Jaya, Selangor, Malaysia.
Tel		: +603-7848 4000
Fax		: +603-7848 5129
E-mail		: noorita.yusof@simedarbyplantation.com

Brief Description of Exhibits/Services:

Guthrie Agri Bio Sdn. Bhd. is involved in the manufacturing and marketing of rat baits as well as trading of harvesting poles, attractants, cover crop seeds, fertilisers, chemicals, personal protective equipment (PPE) and agricultural equipment for paddy farms, plantation and urban sectors.

Booth No: 385	Company Name	: Palm King Marketing Sdn. Bhd.
	Address	: 19, Tingkat 1, Jalan Ria, 42600 Jenjarom, Selangor, Malaysia.
Tel		: +603-3191 6535
Fax		: +603-3191 6531
E-mail		: info@klspalmking.com
Website		: www.klspalmking.com

Brief Description of Exhibits/Services:

Palm King Marketing Sdn. Bhd. is a comprehensive agriculture tools company based in Selangor, Malaysia. Over the past 40 years, Palm King has found niche and focus on offering innovative agriculture tool solutions to help businesses to smoothen the process of harvesting for palm oil and provide safety harvesting for the harvesters. Palm King has successfully expanded the business and worked with many customers domestically and internationally.

Booth No: 386	Company Name	: SSAB Swedish Steel Sdn. Bhd.
	Address	: Unit 32-01, Level 32, The Vertical Corporate Tower B, Bangsar South, Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia.
Tel		: +65 9299 1622
E-mail		: kris.chua@ssab.com
Website		: www.ssab.com

Brief Description of Exhibits/Services:

SSAB wide product portfolio includes a number of unique steel grades. Hardox wear plate – our global brand of wear steels – has the highest awareness of all brands in the steel market. Through close collaboration, we help our customers to utilise our products in the best possible way to create new, innovative steel solutions and applications. Our Hardox HiAce, the latest addition to the Hardox wear plate range, is an ace at fighting both abrasive wear and corrosion.

Booth No: 387 & 390	Company Name Address	:	KSB Malaysia Pumps & Valves Sdn. Bhd. Lot 2A, Jalan Sungai Kayu Aras 32/36, Taman Perusahaan Berjaya Seksyen 32, 40460 Shah Alam, Selangor, Malaysia.
Tel E-mail		:	+6012-921 0912 AiCheng.JaniceKoo@ksb.com

Brief Description of Exhibits/Services:

KSb is a leading supplier of pumps, valves and related systems. These are used in a large variety of applications ranging from building services, industry and water transport to wastewater treatment and power plant processes. Founded in Frankenthal, Germany, in 1871, the company has a presence on all continents with its own sales and marketing organisations, manufacturing facilities and service operations. The success of the company is founded on innovative technology that is the fruit of its own research and development activities. KSB's research centers focus their efforts on hydraulics, materials technology and the automation of pumps and valves.

Booth No: 388	Company Name Address	:	LGC Biosearch Technologies 3791, Jalan Bukit Merah, Ecentre@Redhill, #07-14, Singapore 159471.
Tel E-mail Website		:	+65-9734 6840/ +65-6734 4800 Joy.Kang@LGCGroup.com www.lgctgroup.com / www.biosearchtech.com

Brief Description of Exhibits/Services:

Biosearch Technologies is the comprehensive genomics portfolio from LGC, providing and services for genomic analysis that support mission critical applications for global customers in agrigenomics. Our integrated tools and technologies enable our customers' achievements whether through extraction (sbeadex®), oligonucleotides and reagents (KASP®, BHQplus® probes, BHG® Probe Master Mix), and instrumentation (oKtopure™, SNPline, Nexas®), and IntelliQube®). We also offer lab services for nucleic acid extraction and genotyping via PCR and NGS.

Booth No: 389	Company Name	:	Corporacion Centro de Investigacion en Palma de Aceite - Cenipalma
Address		:	Calle, 98 No. 70-91, Piso 14, Centre Empresarial Pontevedra, Bogota - Colombia.
Tel E-mail		:	+3108563630 lloaiza@cenipalma.org / bguerra@cenipalma.org

Brief Description of Exhibits/Services:

We are the Columbian Oil Palm Research Center – Cenipalma and we would like to show the products and services we have available for the palm oil industry.

Booth No:
391 & 392

Company Name	: Wastech Group Sdn. Bhd.
Address	: Lot 34, Jalan Delima 1/3, Taman Perindustrian Subang Hi-Tech, 40000 Shah Alam, Selangor, Malaysia.
Tel	: +603-5122 3100
E-mail	: cytan@wastech.com.my
Website	: www.wastech.com.my

Brief Description of Exhibits/Services:

We are pioneers of providing our customers with tailor-made integrated agriculture solutions utilising fertilisers and irrigation systems. We combine our 39 years of experience, together with a technology driven approach into our customer specific, precision-based agriculture systems.

Booth No:
393

Company Name	: VG Instruments (SEA) Sdn. Bhd.
Address	: No. 12A, Jalan Dagang SD2/1G, Bandar Sri Damansara, 52200 Kuala Lumpur, Malaysia.

Brief Description of Exhibits/Services:	
	EUDR Ready – Blockchain powered connected digital supply chain platform.
Booth No: 397	Company Name : Fluidtainer Flexitank Sdn. Bhd. Address : 22A-3, Jalan Tiara 2A/KU1, Bandar Baru Klang, 41150 Klang, Selangor, Malaysia. Tel : +603-3344 5816 Fax : +603-3344 5817 E-mail : danny.leong-mypkl@fluidtainerflexitank.com Website : www.fluidtainerflexitank.com
Brief Description of Exhibits/Services:	
	We are a flexi tank operator and a full logistic service provider. We will be exhibiting our flexi tanks (Flexi bags) by using a smaller size sample. Besides exhibiting our flexi bags, we will also be offering our logistic services.
Booth No: 399	Company Name : HifilM INC. Address : 24, Deokseongsandan 2-Ro, Idong-Eup, Cheoin-Gu, Yongin-Si, Gyeonggi-Do, Korea (17130). Tel : +82-31-526-2016 Fax : +82-31-688-0526 E-mail : hcjung@hifil.co.kr Website : http://www.hifil.co.kr
Brief Description of Exhibits/Services:	
	Starting from the development of Kolon's artificial kidney membrane in 1986, we have continuously developed medical membranes, water purifier membranes, and wastewater membranes. In 2001, Kolon's water purifier business became Hifil Tech. Inc., and has been carrying out a water purifier-centered business. In 2020, all kinds of membrane businesses of Kolon Industries were separated into HifilM Inc., and Hifilm Inc. is leading all membrane-related businesses. With about 40 years of know-how accumulated on membranes, we are producing world-class membranes. Our industrial membranes produce world-class membranes for wastewater treatment based on our accumulated membrane production technology. Our membrane fibres are never broken or pulled out during operation based on their high tensile strength.
	Recently, our company has developed an MBR method that does not use air, and it has been able to operate smoothly even in wastewater that requires a high concentration of MLSS, which cannot be operated smoothly with the general membrane MBR process.
	Based on this production technology know-how and our own special construction method, we have about 400 installations and a cumulative throughput of 500 000 T/D.

Booth No:
400

Company Name : **i-Chem Solution Sdn. Bhd.**
 Address : No. 2, Jalan TPP 5/16,
 Taman Perindustrian Puchong,
 47160 Puchong, Selangor, Malaysia.
 Tel : +6012-289 0929
 E-mail : chrysalleh@i-chemsolution.com

Brief Description of Exhibits/Services:

i-Chem Solution Sdn. Bhd. was established by a team of professional engineers and chemists who experienced in total water management. Our specialisation provides one-stop customised solutions in raw water treatment, boiler water treatment cooling water treatment and effluent treatment. The efficiency of boiler was improved after proper consumption of treatment program and Multi-Disc Screw Press is our flagship product in sludge dewatering.
